

Please note:

1. These fees are estimates only for students enrolling in (or currently enrolled in) government funded courses in 2022.
2. The indicative fees for a course may differ between training providers due to the units they have included in the course outline. The differences generally result from adapting courses to meet local industry needs.
3. Nominal hours are not hours of training or instruction. They are used to determine course fees and subsidy levels to reflect the cost to deliver quality training.
4. Concession and annual course fee caps may also apply to some courses. Fee caps apply to some tuition fees only. Note: Proof of eligibility for concession must be demonstrated prior to the commencement of the unit. If the concession is valid for the full enrolment period, then all eligible units commenced within that period attract the concession rate. If the concession is valid for part of the enrolment period, then only eligible units commenced prior to the expiry of the concession attract the concession rate.
5. Fees have been quoted on the basis of 2022 fee rates only. These are expected to change in 2023.
6. Other charges including resource fees may apply to cover materials that students require during the course. Both tuition (course) and resource fees are required to be paid at time of enrolment.
7. To meet our responsibilities, a payment plan will be established where a prospective or current student is required to prepay fees more than a total of \$1,500 (directly or through a third-party).
8. Any payment received before a service is delivered will be deemed to be unearned until such time as a service is delivered or a refund issued.
9. Youth means a person who has reached 15 years of age and is under 25 years old.

Course Code	Course Title	Nominal Hours	Non-Concession Rate	Concession Rate	Resource Fees (incl.GST)	Approximate Non-Concession Total Cost	Approximate Concession Rate Total Cost	Available Funding
