"My Career Coach has been really supportive in my journey to secured employment. When I started with Skill Hire, I was working a few hours a week in hospitality, Sabrina helped organize an approved manager's ticket and RSA to help build my skills for extra hours.

My Career Coach helped me update my resume when my work hours dropped, and I wanted to look for a more hands on outdoor role that was secure. I was successful in securing a labourer job, which required specific tools. My Career Coach helped me with the tools and some work shirts to get me started.

My Career Coach has supported me with regular check ins making sure I am still happy with my work and if there was anything I may need. I love my new role which has assisted me in buying myself a new car, and the team are supportive. I would highly recommend the Transition to Work team at Skill Hire Albany to anyone who is needing assistance."

From humble beginnings in regional Western Australia (WA), Skill Hire is now a national provider dedicated to empowering people through Employment, Skills, Education and Support.

While initially a trade training provider, our operations have significantly grown to include recruitment, apprenticeships and programs contracted to the Department of Employment and Workplace Relations. Our increased national footprint has positioned us to provide unique and comprehensive solutions for education, training, and employment via our vertically integrated business model.

Our business model allows us to cover the entirety of someone's career. By creating multiple entry and exit options we provide students to business owners with choice and flexibility. Our branches are part of the local community, for us, it's all about the personal touch,

ensuring we tailor and customize solutions for individuals, local and national businesses.

Today we employ over 100 staff across 4 states to deliver our services, in addition to supporting more than 1,000 contract staff, apprentices and trainees.
