Your guide to 2026 fees

This booklet sets out the 2026 course (enrolment) fees and resource fees for Skill Hire's trade apprenticeships and pre-apprenticeships, so you and your employer know what you will pay before training starts.

Fees are listed for every unit in each qualification. You pay course and resource fees only for the units you start, and most apprentices pay them stage by stage across their apprenticeship.

About Skill Hire

Skill Hire is a Western Australian provider of education, training and employment solutions, supporting more than 1,000 contract staff, young people, apprentices and trainees. Starting from humble beginnings in regional Western Australia, Skill Hire has grown to include recruitment, apprenticeships, traineeships and Indigenous employment programs. Skill Hire WA is a Registered Training Organisation (RTO 0361) and part of the IntoWork Group.

Understanding your fees

Two kinds of fees apply to Skill Hire trade qualifications: a **course fee** for tuition and a **resource fee** for the materials you use in practical training.

Course (enrolment) fees

Course fees for government-funded training are set by the Department of Training and Workforce Development (DTWD) VET Fees and Charges Policy 2026. They are calculated from the nominal hours of each unit you enrol in.

Qualification	Non-concession	Concession
Carpentry, and Painting and Decorating apprenticeships	$1.62 per nominal hour	$0.48 per nominal hour
Bricklaying and Blocklaying, and Plumbing apprenticeships, all pre-apprenticeships, Construction Pathways	No course fee	No course fee

Fee caps. In 2026 the most you will pay in course fees for one of these courses is **$1,200**, or **$400** if you are a concession student or youth (aged 15 to 24). Secondary school-aged people not enrolled at school pay no more than **$420**. Caps apply per calendar year and do not include resource fees.

Concessions. You must show proof of eligibility before the unit starts. If your concession covers the whole enrolment period, every eligible unit you start in that period is charged at the concession rate; if it expires part way, only units started before it expires are.

Nominal hours are not hours of training or instruction. They are used to set course fees and subsidy levels.

Resource fees

Resource fees pay only for materials Skill Hire buys that you use up or transform during practical training, such as timber, bricks, mortar, copper pipe, fittings, paint and wallcoverings. They are separate from course fees.

- Each fee is calculated from the direct cost of the materials for that unit, shared across the students and classes that use them. It is never more than the cost of the materials.
- Resource fees do not cover campus tools or equipment, enrolment, administration or classroom costs. Personal hand tools are not included; Skill Hire will tell you before enrolment what you need to bring.
- Fees are reviewed each year. Any increase is limited to the Perth CPI rate set by DTWD (2.6% for 2026).
- Secondary students enrolled at school, and students in state care not enrolled at school, do not pay resource fees.

Census dates, withdrawals and refunds

Each unit has its own census date, set at least 20% of the way through the unit. It is the last day you can withdraw from the unit and still receive a refund.

- **Withdraw on or before the census date:** 50% of the resource fee is refunded, along with the course fee refund set by the DTWD policy.
- **Skill Hire cancels or reschedules a unit,** or cannot offer you a place: course and resource fees are refunded in full.
- **Circumstances beyond your control:** you may apply for a pro-rata refund, with supporting documents.
- After the census date, fees for that unit are payable in full.

Invoices and payment

When you enrol you receive an itemised invoice listing every unit, its census date, nominal hours, course fee, resource fee and the total, even for fee-free training.

Where an employer pays, Skill Hire agrees a written payment arrangement with them. Payments must continue for every unit started, even if the apprentice leaves after the census date, and must be finalised by the time the qualification is completed. Apprentices still receive their own copy of each invoice.

Please note: The Student tuition fees are indicative only and are subject to change given individual circumstances at enrolment. Additional fees may apply such as resource fees and other fees. All fees are charged in accordance with the DTWD VET Fees and Charges Policy 2026.

Restricted Gas Permit course: $350, charged separately. Building and Energy requires students to hold a Restricted Gas Permit before attending any training after Stage 1. The two-day course covers gas safety, gas legislation, combustion and fluing.

Students who completed the 52887WA plumbing pre-apprenticeship attend a catch-up block (CPCPCM3025, RIIWHS202E, CPCPCM2049, CPCPCM2054 and the gas permit course). These units are charged at the fees shown in Stage 3.
